PROFESSIONAL SUMMARY

Backend & Full-Stack Engineering student and Backend Team Lead with proven experience architecting modular Python/FastAPI services, REST APIs, and relational PostgreSQL databases. Skilled in driving Git-based code reviews, system design, and performance optimizations. Demonstrated track record of leading development teams, shipping production-grade backend components, and cutting API latency by over 91.5%.

TECHNICAL SKILLS

- **Languages:** Python, SQL, JavaScript, TypeScript
- **Backend & APIs:** FastAPI, Flask, REST API Development, Pydantic, SQLAlchemy, JWT Authentication, Async/asyncpg
- **Frontend:** React, Next.js, Vite, Tailwind CSS
- **Databases & Architecture:** PostgreSQL, Relational Database Design, Domain-Driven Design (DDD), Modular Architecture
- **Software Engineering & Tools:** Data Structures & Algorithms, Git/GitHub, Code Review, Pytest, Ruff, MyPy, Render, Vercel, Supabase

WORK EXPERIENCE

UWACI / MegaBliss Limited — Remote

Backend Team Lead (Pipe 3) | Aug 2026 – Present (Promoted Sept 2026)

- Coordinate and lead 3 backend developers, managing technical task planning, task assignments, code reviews, PR merges, and architectural decisions for Pipe 3.
- Authored 12 PRs (6 merged) and reviewed 5 PRs across the backend codebase while enforcing strict code quality standards using Pytest, Ruff, and MyPy.
- Implemented 4 core backend components: Traffic domain foundations, Trip Intent services, Directed network topology, and a Provider-neutral cross-pipe location architecture using Python, FastAPI, Pydantic, and SQLAlchemy.
- Applied Domain-Driven Design and dependency-inversion principles to architect scalable REST APIs and relational PostgreSQL schemas.
- Authored technical documentation, onboarded developers, and collaborated closely with frontend engineering and leadership to translate requirements into robust technical solutions.

PROJECTS

BijliAudit — Electricity Billing Audit Platform | bijli-audit-lime.vercel.app

Next.js, TypeScript, React, Supabase, PostgreSQL, Gemini OCR, Tailwind CSS

- Built a full-stack forensic electricity-billing audit platform for Indian consumers, featuring OCR-based bill analysis, tariff slab calculations, and automated CGRF grievance generation.
- Identified and resolved a critical dashboard API network waterfall caused by sequential authentication and database calls; replaced it with a local audit reader to achieve a **91.5%+ latency reduction (2,231 ms to 188 ms / 11.8× performance improvement)**.

CashBuddy — Full-Stack Personal Finance Platform

Python, FastAPI, React, TypeScript, PostgreSQL, SQLAlchemy, JWT

- Served as Team Lead for an AI-powered personal finance management platform; engineered 8–9 core features including expense tracking, budgeting, savings goals, Smart Sweeps, Magic Import, transaction categorization, OTP authentication, and reCAPTCHA.
- Designed relational PostgreSQL database schemas and RESTful endpoints; co-authored research paper on the system accepted for publication in *IJPREMS* (Vol. 06, Issue 03, March 2026).

EduFlow — Academic Management Platform

Python, FastAPI, PostgreSQL, SQLAlchemy, React, TypeScript, Vite

- Built backend REST APIs and normalized PostgreSQL database architecture for a multi-role LMS supporting 50+ structured endpoints, role-based access control (Admin, Teacher, Student), automated group assignments, and submission evaluations.

EDUCATION

B.Tech in Artificial Intelligence & Data Science | D. Y. Patil Pratishthan's College of Engineering, Akurdi, Pune

Direct Second Year Student (Currently 2nd Year) | Expected Graduation: 2029

Diploma in Artificial Intelligence & Machine Learning | D Y Patil Polytechnic College, Ambi, Pune (MSBTE)

Score: 91.06% (First Class with Distinction) | Graduated: 2026

RESEARCH PUBLICATION & ACHIEVEMENTS

- **Publication:** *CashBuddy: An AI-Driven Personal Finance Management System* — IJPREMS, Vol. 06, Issue 03, March 2026 (DOI: 10.58257/IJPREMS51878).

Achievement: 1st Rank (Winner) out of 50+ participants — Innovative Idea Presentation, Pimpri Chinchwad Polytechnic College (Feb 2025).
